### ***Oldtimer Bohemia Rally 2010 starts on Thursday 26 August***

*There are 47 cars and one motorcycle on the starting list. They have been assorted into seven categories according to FIVA.*

*The spectators will see many treasures of the automobile history during the rally. The venture is taking place in the Czech Republic, therefore it is logical that a lot of registered cars are the products of Mladá Boleslav's factory (Laurin&Klement and Škoda). Most of them are Felicias from the beginning of the 60's of the 20th century.*

*The oldest car is RAF H-10 produced in 1909, owned by Mr. Evžen Majoroš from Hradištko. Mr. Petr Michálek will come from Prague with Rolls Royce 20/25 Boat Tail Speedster from 1930. Its bodywork was adapted in the Trupp&Maberly garage. Mr. Petr Pelech from Liberec will introduce MG B from 1964. This car's last registration comes from California in 1979. The car was imported to the Czech Republic in 2003 and afterwards was renovated in Litoměřice in Josef Hanč's garage.*

*Most of the participants of the rally come from the Czech Republic. There are two cars which come from abroad: BMW 340 (1949) and Mercedes Benz 280 SL (1968)."*
